Pan Coating Systems

## Smart Coating Cuts Costs!

The most cost-effective path to the leading coating technology: GC Smart®

### Keep costs to a minimum

The GC Smart® is a compelling new pan coater design capable of both film and sugar coating processes. It offers the high level of innovative technology for which Glatt is internationally recognized at an extremely attractive price!

# A maximum of efficiency and flexibility

With respect to process technology, the GC Smart® offers the same characteristics as the internationally successful Glatt coater series GC and GC Master.

- Sugar coating is available as an option.
- Fast process times thanks to optimized air flow inside the fully perforated drum.
- Batch sizes from 100 to 700 litres.
- Installation: Free-standing or through-the-wall to allow for a strict division between the technical area and GMP zone.

Exclusive Glatt high performance nozzle

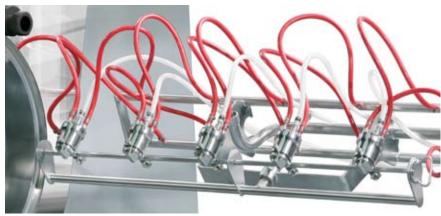

## Clever Solutions!

A stunning creation – intelligence in action: the GC Smart® line of pan coaters

### Ingeniously simple handling

Ideal ergonomics and easy operation of the entire system make for amazingly simple handling.

- The center-mounted nozzle arm suspended from the top of the housing is particularly smooth running for easy handling.
- Excellent access through the large side doors.

Center-mounted nozzle arm

## Patented Smart*Scoop*® discharging system

The new patented SmartScoop® system allows the finished product to be discharged extremely fast down to the last tablet. Its two-piece design makes handling easy for any operator.

### Perfect process control

The new EcoView control system offers maximum user-friendliness and fulfills all the requirements of GAMP 4 and CFR 21 Part 11.

- Fast and simple process control.
- User-friendly touch screen panel.
- Process security thanks to access control.
- Integrated recipe management.
- Process documentation by means of a batch report.

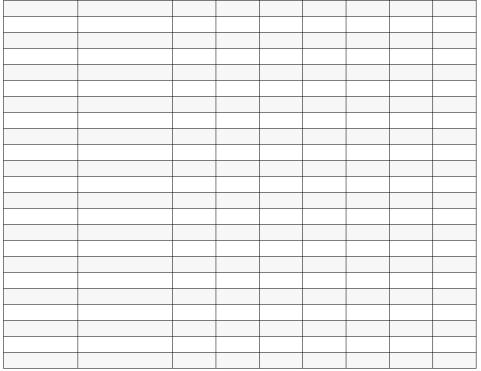

## **Excellent cleanability**

Typical Glatt: It goes without saying that also the GC Smart® fulfills all GMP requirements.

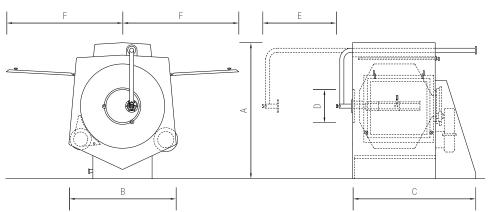

- Excellent cleanability thanks to easy access, the seamlessly welded internal housing and the unique cantilevered drum bearing.
- Even an integrated WIP cleaning system is available as an option.

### GC Smart®

(Subject to technical alternations)

## Only a perfect coater can be this smart!

It just has to be a Glatt coater! The new GC Smart® offers unrivalled efficiency, handling and process safety at an unbelievably affordable price level. Constructed by experts, the advanced design is an expression of technological excellence.
